Three Q Technologies

A modular approach to common challenges

Why iNterface?

iNterface is a **modular, multi-functional operational support tool** which provides an Eco-system that can be applied to several business environments. This suite of software is offered on a **secure Web based** platform, accessible from any internet connected smart device. The platform consists of a number **functionally distinct areas** that can operate independently, however demonstrate increased efficiencies and effectiveness when modules are combined. Although each module has its unique area of functionality, they leverage **common data**. The architecture of iNterface ensures **ease of deployment** in varying environments, with minimal customisation for a chosen application.

"**Digitally centralised – Operationally decentralised**"

Shop iNterface (Si)

iNterface has an **online marketplace** capability, branded as Shop iNterface (Si), with traditional product catalogues, shopping cart, checkout and payment gateways that integrates with banks as well as e-wallet technologies.

This module is aimed at the **Business-To-Consumer (B2C) market** and provides you with a simple, yet effective online shop (storefront) which can be tailored to your business size and needs. No need for you to have technical experience – we do all the heavy lifting for you!

You can upload unlimited number of **products with their digital images** and there is no limitation to the number users you give access to your online marketplace. The integrated Geo-Location capability, together with a comprehensive rule-based **engine** makes cost of **delivery calculations simple and effective**.

Automated in-system order notifications improve service delivery and customer satisfaction.

iNterface, hosted in a **world class data center**, gives you the assurance of a **secure, stable platform, available 24/7** with international up-time standards.

Shop iNterface gives you a digital footprint in the world of e-Commerce at an affordable price point.
